DETAILED ACTION

This application was filed 12/19/2003 and claims priority to Provisional Application 60/434760 (12/19/2002). Claims 1-10 are before the Examiner.

Election/Restrictions

1. Applicant's election with traverse of group I in the reply filed on 5/11/2005 is acknowledged. The traversal is on the ground(s) that separate searches would not be required and thus would not be a serious burden. This is not found persuasive because the search for members of group I would not necessarily cover the members of groups II-IV. The groups are separately classified and support separate searches.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 8-10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 5/11/2005. Claims 1-7 will be examined to the extent that they read upon the elected group.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1625

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically, the last two lines of claim 1 that contain the second proviso do not make sense. R⁶ cannot be two different things at the same time. Correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Kennis (US Patent #6057325). Kennis teaches

Art Unit: 1625

that encompasses the instant claims.

7. Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Ennis (US Patent #6849640, effective filing date of 8/9/2001). Ennis teaches

that encompasses the instant claims.
